1/17/25 - Sheren Plumbing & Heating: Found all thermostats set at 60; found master bedroom and closet cold...found coin vent in closet and was able to purge the air out and get flow. Went through and tested the rest of baseboard heat throughout house. Did find auto vent in upstairs hallway bathroom. Attempt to change, however not enough room to spin it off without damaging baseboard. Talked with Kristi and she said to leave it for now if problem persists we will look into more involved repairs. Currently everything is heating OK.	1	265.00	265.00
